

Ngo Xuan Cuong

Backend Developer Intern

✉ ngocuongcm2005@gmail.com ☎ 0388545085 🌐 github.com/NgoXCuong

SUMMARY

Third-year IT student specializing in Node.js backend development. Experienced in API design, database optimization (SQL/NoSQL), and project collaboration. Seeking a Backend Internship to deliver value and refine practical development skills.

SKILLS

- **Programming Languages:** JavaScript (ES6+), Python
- **Backend Development:** Node.js, Express.js, RESTful API, MVC Architecture.
- **Databases:** MySQL, SQL Server, MongoDB
- **Tools & Modern Tech:** Git/GitHub, Docker, Postman

PROJECTS

CHRONOS WATCH - E-commerce Platform

03/2026 – 05/2026

Backend Developer – Team Project (3 members)

- **Tech Stack:** Node.js (Express 5), MySQL, Sequelize, React 19, Google Generative AI (Gemini), JWT.
- Designed and implemented a scalable MVC architecture with a dedicated Service layer to maintain clean business logic.
- Integrated Google Gemini AI to provide real-time product recommendations and automated customer support.
- Developed a secure authentication system using JWT and HTTP-only cookies, and built an interactive Admin Dashboard for tracking sales and inventory.
- Leveraged Cloudinary for efficient cloud-based image storage and asset management.

SMARTDOC AI - Intelligent Document Management SaaS

04/2026 – Present

Fullstack Developer

- **Tech Stack:** Node.js (Express 5), MongoDB, Redis, BullMQ, LangChain, Tesseract.js (OCR), React 19, Socket.io.
- Architected an AI-powered SaaS platform using LangChain, enabling users to interact and extract insights directly from PDF/Docx files via RAG.
- Implemented a high-performance OCR Service to extract multilingual text from scanned documents and images.
- Optimized system scalability using BullMQ and Redis for the background processing of heavy document indexing and AI embeddings.
- Ensured API security through Zod validation and rate limiting, while integrating Socket.io for real-time document processing updates.

EDUCATION

East Asia University of Technology

08/2023 – Present

Information Technology

GPA: 3.47/4.0
